ABHISHEK HALDAR

Student

PROFILE

Versatile professional with strong analytical skills and a rapid learning curve. Excellent communicator with a witty approach. My expertise in data analysis is matched by a confident self-assuredness that underscores my commitment to my assertions. I thrive in environments that demand adaptability and challenge, continuously seeking opportunities to expand my skill set.

SKILLS

- Project Management
- Public Relation
- Leadership
- Effective Communication
- Critical Thinking
- Coding (Python)
- Video Editing
- Creative writing
- Photoshop
- Problem Solving
- SQL intermediate Level
- Expert in MS Excel Data analysis

EDUCATION

SHANNEN SCHOOL CBSE

- Secondary education
- Higher secondary education, PCB

NAVRACHNA UNIVERSITY

- BSc Data Science
  Ongoing, 2023-2026

EXPERIENCE & CERTIFICATIONS

- Microsoft Data Analyst Career Path
  - Configure a Semantic Model – Microsoft
  - Publish and share in Power BI
  - Explore data in Power BI
  - Model data in Power BI
  - Optimize a model for performance in Power BI
  - Create visual calculations in Power BI Desktop
  - Use DAX time intelligence functions in semantic models
  - Modify DAX filter context in semantic models
  - Create DAX calculations in semantic models
  - Write DAX formulas for semantic models
  - Configure a semantic model
  - Get started with Copilot in Power BI
  - Introduction to end-to-end analytics using Microsoft Fabric
  - Get started building with Power BI
  - Discover data analysisy
- BigQuery Analytics – Google Badge
  - Performed advanced data analysis and optimized SQL queries for large datasets in BigQuery.
- Data Analytics – Google Badge
  - Applied data cleaning, exploratory analysis, and visualization to extract actionable insights.
- AWS Academy Graduate – AWS Academy Data Engineering
  - Completed cloud-based ETL pipelines and end-to-end data engineering workflows.
- AWS Academy Data Engineering Certificate / Badge
  - Designed and optimized data pipelines and storage solutions on AWS for analytics.
- AWS Academy GenAI (2nd)
  - Explored generative AI concepts and implemented them in cloud-based workflows.
- AWS Educate Introduction to Generative AI
  - Gained hands-on experience integrating generative AI models into cloud environments.
- Cloud Foundations Badge / AWS Academy Cloud Foundations Badge
  - Acquired knowledge of AWS core services, cloud architecture, and security best practices.
- AWS EMR Badge
  - Deployed and managed big data processing workflows using Amazon EMR with Spark and Hadoop.
- AWS Academy Graduate – AWS ML Foundations Badge / ML Badge
  - Built and deployed machine learning models on AWS, covering foundational ML concepts and cloud implementation
